

Reception Brain Workouts

Phonics

At Joy Lane, we aim to develop confident, fluent and passionate readers from an early stage. We follow a phonics programme called 'Little Wandle: Letters and Sounds Revised'.

You will receive a weekly Phonics home learning sheet. This sheet will provide you with the sounds and words they have been learning. Please practise these at home together.

Reading

In school, children will read in groups three times a week. They will then receive the same book to bring home and share with you.

In Reception, this will start in **Term 2**

Maths

In school, children will enjoy daily opportunities to explore counting and number activities. At home, you might like to sing counting songs, notice numerals in the environment, practise sharing out snacks into equal sets or combine groups of soft toys and work out 'how many altogether' - these practical activities will really help your child to understand key mathematical concepts.
